

39m Jetsetter hits the water at Dynamiq Yachts

Dynamiq Yachts, the company originated in Monaco in 2011, has launched its first superyacht, 39m Jetsetter at Marina di Carrara in Italy.

London based design studio Bannenberg & Rowell is responsible for her interior styling. Jetsetter has been designed in Monaco, engineered in Holland and constructed in Italy at the NCA shipyard. The yacht can sleep up to 8 guests in 4 staterooms.

The D4 range was built as a fast family cruiser just below 40m, using a platform

designed with a shallow draught of only 1.7m. Azure and Van Oossanen Naval Architects developed and optimized the superyacht's hull.

Performance wise Jetsetter is powered with a pair of 1,800hp MAN V12 1800 engines twinned to Fortjes pod drives providing her with a top speed of 21 knots.

Jetsetter will now head to the Monaco Yacht Show where she will be one of the yachts worth a visit at the venue.
