BUILD YOUR OWN DYNAMIQ YACHTS!

June 26, 2015 by [Nicolas Saugnac](#)

The new brand Dynamiq Yacht not only introduce a groundbreaking design, but also a great website to promote their boats. The yachting industry still lack from innovative web-marketing ideas, and this is one. It's now current on automobile brand's website to create your own car from an option list. In the yachting industry we mostly use paper option list. Dynamiq Yachts introduced a "configurator" well designed, intuitive and fast that allow you to test multiple different color range, finishing, and various options. Worth taking a look and dream!
