Yacht builder Dynamiq proudly announces the opening of its new commercial office inside the Yacht Club de Monaco complex. With many of the world's most prestigious private yachts flying the Yacht Club's burgee, the new location serves to improve access to Dynamiq's global customers, brokers and dealer network.

“With our new commercial office, we want to establish a symbol that stands for our Monegasque roots, local partnerships and transparent shipbuilding approach,” says Sergei Dobroserdov, CEO of Dynamiq. “Our new headquarters is a place for maintaining an open dialogue with clients and yachting professionals that will help to shape the future of our company.”

“The opening of the office in the heart of Monaco's yachting hub means Dynamiq is able to offer its clients a uniquely exclusive service,” says Maurizio Magri, commercial director of Dynamiq. “I would like to welcome everyone to the 4th floor of YCM to discuss their new Dynamiq yacht and configure it down to the smallest details online using our unique configurator. I promise that in less than half an hour you will have your plans customised, priced and a delivery date

negotiated and confirmed.”
