Watch the Official Trailer for Dynamiq GTT 115 by Studio F.A. Porsche May 18, 2017

Monegasque yacht builder [Dynamiq](#) and a full-service industrial and transport design agency [Studio F.A. Porsche](#) are developing an exclusive series of all-aluminium superyachts imbued with Porsche flair. The world famous design studio, helmed by Managing Director Roland Heiler (a Member of the Board at Porsche Design Group) has created both the exterior and interior styling of the entire range. The first 35-metre [Dynamiq GTT 115](#) Hybrid is already under construction in Viareggio, Italy, while 100- and 85-foot models are in development and will be presented later this year. Dynamiq will manufacture only seven GTT 115 yachts, that will be priced from €11,900,000, and will be delivered within 15 months from the date of order.

The sporty exterior design by Studio F.A. Porsche matches the yacht's noteworthy performance, and the name says it all: GTT stands for Grand Turismo Transatlantic. A Dutch leading yacht design, naval architecture and engineering studio Vripack developed the hull lines of the GTT 115, while independent naval architects at Van Oossanen make sure that the GTT 100 and GTT 85 models will excel in performance, in terms of efficiency, safety and comfort.

The GTT 115 features a round bilge aluminium hull and a specially engineered stabilisation system from Humphree with four electric fins and interceptors. The twin 1213kW MAN engines in conjunction with the latest Fortjes 5000 pods are able to propel the superyacht at a maximum speed of 21 knots. She is capable of crossing the Atlantic with a range of 3,400nm and with a shallow draft of just 1.45 metres (less than 5 feet), is perfect for the Mediterranean, Caribbean or Southeast Asia.

An optional hybrid power system for the first GTT 115 and is available via the exclusive Dynamiq Configurator. Other notable technical features include two technical compartments or engine rooms, with twin 45kW Fischer Panda variable-speed generators located in the bow. This smart layout ensures a silent ambience at night and avoids smoke and fumes at anchor while the owner and guests are swimming or sunbathing on the aft platform.

Not only the GTT 115 will boats the signature Porsche Carrara white, Rhodium Silver, Chalk or custom Monte- Carlo Blue exterior colors, she will also rock recognizable Porsche elements, such as the Targa-style mullions or the transom design that echoes the Mission E concept. The deck cushions feature fabric centres with a classic Pepita houndstooth pattern, similar to the latest 991 R edition. The sporty yet refined interior features three or four luxury cabins with Saddle brown and Luxor beige leather with carbon fibre details, and expansive surfaces of Sahara Noir marble. The furniture and decoration were developed in association with the Italian designer brand Minotti.

Dynamiq is the first company in the superyacht industry to introduce an online configurator, allowing the yacht to be easily and transparently customised down to the last detail. The GTT 115 can be customised via Dynamiq's unique Configurator, which allows the client to personalize every aspect of the yacht, from paint colors to interiors and electronics, and automatically track the total cost in real time. The first GTT 115 by Studio F.A. Porsche is available for sale

with delivery in September 2017. Her world premier will take place at the 2017 Monaco Yacht Show and the yacht will attend subsequent international events.
