

# Dynamiq GTT 115 - a first glimpse of a Porsche designed Motor Yacht

4 МИНУТЫ

---

[Dynamiq Yachts](#) released some first information of the Dynamiq GTT 115. The new model is a limited edition of seven yachts.

The Monaco-based brand with a facility in Viareggio, Italy constructs the full-aluminum yacht in secret but published first information some weeks ago. Now they are coming up with more details.

Dynamiq appointed the Austrian design company [Studio F.A. Porsche](#) (a part of the [Porsche Design Group](#)) for works on the exterior and the interior styling. The naval architecture comes from [Vripack](#).

GTT stands for Gran Turismo Transatlantic. She will have a range of 3,400 nautical miles @ 10 knots to cross the Atlantic ocean like [M/Y Jetsetter – the first launch by Dynamiq](#).

Roland Heiler, Managing Director of the Porsche Design Studio, who designed exterior and interior styling commented:

*“Taking the spirit of high-performance sportscar styling to the high seas, the Dynamiq GTT 115 is designed to appeal to car lovers and forward-thinking yacht owners who appreciate the*

*advantages of speed, style and our philosophy of intelligent performance.”*

No Porsche engines but powerful twin MAN with 1.213 kW combined with [Fortjes 5000](#) to reach a top speed of 21 knots. The draft of 1.45 meters is perfect for small marinas or shallow anchor bays.

For 95.000 EUR is a hybrid power system available with two 45kW Fischer Panda in the bow. This layout offers more silence and less smoke at the aft area.

Sergei Dobroserdov, CEO of Dynamiq explains:

*“When we talk about comfort and top service, the ideal for this size of a yacht is six guests in three cabins served by a 1:1 ratio of six crew for genuinely exclusive onboard service. We also designed the interior ceiling heights to more than 2.15 meters (7 feet), even in the lower deck cabins: that’s real luxury on a 35-meter yacht.*

*Our target clients might include those who are looking to downsize from larger 50- or 60- meter yachts. They are already accustomed to the highest standards but are ready to leave behind the hassle and huge costs of owning large vessels so they can enjoy the fun side of yacht ownership. The Dynamiq GTT 115 is the perfect realization of utmost comfort and a sporty lifestyle in a practical and relatively compact package.”*

Dynamiq Yachts is known for their price transparency with an online configurator. Perfect for people who are looking for the entry into the superyacht lifestyle with a new yacht. The GTT 115 has a base price of 11,900,000 EUR and takes 15 months of construction. The first model is currently for sale and will be

presented at the [Monaco Yacht Show](#).

Later this year, the yard will present the smaller models GTT 85 and GTT 100.

## GTT 115 keel laying with royal support

Sergei Dobroserdov invited Pierre Casiraghi, a member of the Monégasque royal family and Bernard d'Alessandri, the general secretary of the [Monaco Yacht Club](#) to the keel laying ceremony.
