

Dynamiq presents limited GTT 135 CARAT edition | www.pressmare.it

Dynamiq

2 минуты

Dynamiq has developed a special edition of its GTT 135 with a striking gold theme aimed at the Middle Eastern market. The hull of the limited GTT 135 CARAT edition is painted an exclusive Royal Gold and the bathrooms feature gold accessories by Serdaneli. High-end equipment includes a phenomenal Steinway Lyngdorf music system. Naturally, the air conditioning system is specified for the hot Middle Eastern climate and even the MAN engines come with gold-plated cylinder heads.

The Dynamiq GTT 135 is an all-aluminum fast cruiser and the most luxurious “full options” yacht in her class with exclusive paint and fittings by top luxury brands. Built on a 41m (135ft) platform with a shallow draught of just 1.6m, she is perfect for cruising Middle East waters or the Maldives, but with a range of 3,000 nm she can just as easily voyage to London or New York. With the largest sundeck for her size (120 sqm/1,291 sq/ft) and five very spacious staterooms, the no-compromise GTT 135 is the ideal superyacht for family pleasure or corporate use.
