Dynamiq is proud to present the

renewed GTT 165, the flagship model in the Dynamiq range. The latest updates made to the GTT 165 follow the successful unveiling of the renewed GTT 160 model in March this year, bringing the GTT range in line with Dynamiq's signature lines and unique design language.

With modern technology and unique design at her core, the GTT 165 is an innovative 50m (165') superyacht.

Designed for those seeking ultimate relaxation, she comfortably accommodates 12 guests across six luxurious staterooms including an impressive owner's suite.

The two side structural balconies are a particular highlight, providing the

owner with private moments on board, while a desk, seating area and large ensuite bathroom with a freestanding bathtub complete the space. The GTT 165 boasts a unique interior style with an exclusive selection of furnishings and accessories from renowned Italian fashion house Bottega Veneta. The chic interior is designed in a relaxed Maldivian style, with a calm palette and natural woods and stone. From indulging in a day of relaxation in the onboard spa to enjoying cosy family meals by the open galley, the GTT 165 is a superyacht that has it all. Large sliding doors on the upper deck allow guests to transform the area from a spacious indoor-outdoor space to a sophisticated dining area,

with the upper salon fireplace creating the perfect intimate ambience.

In addition to flexible dining and entertainment spaces, the aft sundeck is dedicated to wellness, featuring 360-degree views from the gym as well as plenty of space for a tranquil yoga setup. The state-of-the-art spa centre is found on the lower deck with direct access to the water.

Engineered in the Netherlands by the experts at Van Oossanen Naval

Architects, the GTT 165 has a robust, fast-displacement hull built from an aluminium alloy, making her a super-efficient ocean-going yacht. She is capable of a maximum speed of 19 knots (23 knots with the Sport package), and a long-distance autonomous range of 4,000 nm resulting in the ability to undertake multiple cruising seasons.

At the owner's request, a hybrid propulsion system can be chosen for ultimate efficiency and silent operation.

Prospective clients can browse the full offering of custom solutions on the GTT 165 on the Dynamiq online yacht configurator [here](#).

The only application of its kind, the online yacht configurator provides comprehensive information to visitors: from the latest water toys to underwater light systems. The GTT 165 has a starting price of €24,750,000.

The GTT 165 is built in compliance with the strictest commercial regulations (LY4 and Tier III). Not only does this ensure impeccable comfort and safety at sea, but presents owners with an attractive option of

commercial charter operations.
