

Dynamiq x Klassen GTM 90 Yacht

1-2 минуты

[Dynamiq x Klassen GTM 90 Yacht](#)

Developed in collaboration with German tuner Klassen, Dynamiq's GTM 90 draws heavily from automotive design. The sleek superstructure has supercar-like lines, and with three Volvo Penta IPS-1350 engines, it can hit speeds of over 30 knots while offering a range of 800 nautical miles at its 17-knot cruising speed. It was designed with cooler climates in mind; as such, a series of sliding doors and foldable bulwarks can transform the aft beach club, dining area, and open galley from an open-air oasis to a warm, cozy retreat in seconds. Four cabins are spread across the lower deck, including a spacious master suite with a circular

bed from Bentley home and an onyx bath with custom hammam.
