Updated 50m GTT 165 superyacht by Dynamiq

August 20, 2020

1816

Dynamiq has updated its 50 metre GTT 165 superyacht model, which features a robust, fast displacement hull built from aluminium alloy and naval architecture penned by Van Oossanen Naval Architects, making her a super-efficient ocean-going yacht with a range of 4,000 nm.

Designed for those seeking ultimate relaxation, the renewed GTT 165 remains with a six-cabin layout, accommodating 12 guests, with the owner's suite featuring two side structural balconies and a freestanding bathtub.

As for the interior, the yacht boasts the Maldivian-inspired interior styling with an exclusive selection of furnishings and accessories from Bottega Veneta.

The aft sundeck is dedicated to wellness, with a 360-degree view gym and maximum space for fitness, while the state-of-the-art spa centre is found on the lower deck with direct access to the water.

The updated yacht now comes with a slightly faster maximum speed of 19 knots or 23 knots with the S version. Also, at the owner's request, a hybrid propulsion system can be chosen for ultimate efficiency and silent operation.
